- Cleans with water;
- No VOC.

# Timbermate®

### Preparation:

Base material must be sound. Not for use on rotted wood. Make sure area is clean and free of dust. Apply with a wet, plastic putty knife. Ensure the gap is filled. Fill a max. of 1/4" layer at a time. Allow to dry between layers. Can speed drying time by using a heat gun. Drying time is 1-3 hours depending upon the weather and depth of the fill. Sand when dry using 120 grit sandpaper or finer.
